 You want 12 X 16 SS ADD \$270.00 **Total \$4,418.00**

Options - add to price total

Stainless Steel manual spooling bar assembly	\$550
Powder Coat finish on Aluminum winches	\$500
Spool cable and chain onto winch	\$200
Reverse angles (gusseted)	\$450
Flame spray Valve	\$118

All winches receive stainless steel hydraulic fittings and stainless steel tubing plumbed between the motor and work ports of the control valve. All anchor winches are tested and run in house to ensure proper function. All stainless steel anchor winches receive hand ground and buffed welds including passivation with electro polish finish.

Direct drive series winches are good for up to a 100 lb. anchor. Winches require 1500 to 1800 PSI at 3 to 5 GPM
