

JK FABRICATION FISH STRIPPER/HOOK CLEANER

MODEL MFS03 Hydraulic-Operated Stainless Steel Fish Stripper/Hook Cleaner

J.K. Fabrication's improved Fish Stripper/Hook Cleaner has Features found no where else.

- **Heavily constructed Stainless Steel materials are used throughout for many years of service and dependability in the Salt Water Environment.**
- **Water Sprays over the Cleaning Brushes as the Longline comes aboard, keeping the brushes free of stripped bait.**
- **A full complement of Six Brushes are very easy to Replace and to Change-out**
- **Compact Design is available in Manual-Opening or Hydraulic Powered-Opening, and as the Stripper measures only 23"L X 12"W X 12"T, the unit is easily adaptable to many Longline systems.**
- **Optional Adjustable Arm is available for mounting the Stripper Assembly directly onto Nordic 17" and 24" Longline Haulers**
- **Proven Fish Stripper is used in Fisheries around the world, from Korea to Russia, and throughout the US North Pacific**

MODEL MFS02 Manual Stainless Steel Fish Stripper/Hook Cleaner

STANDARD FEATURES

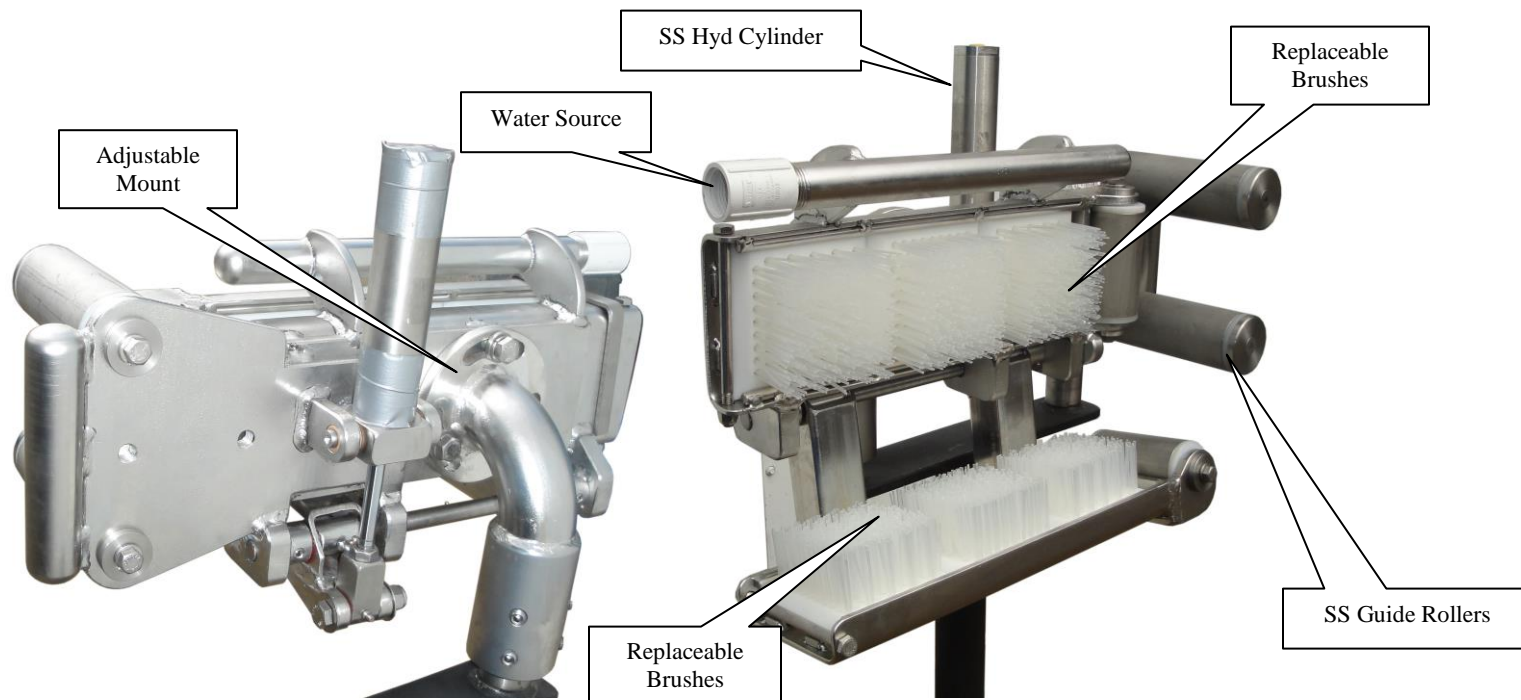

- **All Stainless Steel Construction for Maximum Strength and Long Life in the Marine Environment**
- **Optional Easy-open Hydraulic-operated Cylinder Arrangement Available**
- **Designed to install easily onto Longline Hauler with optional Arm**
- **Replacing and changing-out of the Brushes is very easy to accomplish in the Field**
